#### EXPERIENCE

Robert Kerns has broad-based experience in evaluations, condition surveys, investigations, and water testing of exterior envelope building systems on various structures and facilities. He provides exterior envelope peer review and design assistance services for developers, architects, building owners, and contractors. Mr. Kerns' expertise also includes below-grade waterproofing, windows and doors, curtain walls, plaza waterproofing, and roofing.

Mr. Kerns also specializes in exterior wall cladding such as portland cement plaster (stucco), EIFS, cement board siding, rain screens, metal panel, stone, and precast concrete. He provides repair and replacement design services for exterior envelope systems. Mr. Kerns' projects also involve developing construction drawings, specifications, and project bidding and contracting requirements, and he provides litigation support services for construction defect-related cases.

#### REPRESENTATIVE PROJECTS

##### Peer Review

- St. Joseph's Senior Housing - Oakland, CA: Slate roofing, metal roofing, masonry, and wood window-design assist services for historic building
- Sugar Bowl Ski Vacation Residence - Norden, CA: Exterior envelope peer review and design-assist services for new vacation residence
- Temple Judea - Tarzana, CA: Exterior envelope peer review and design-assist services for the renovation and expansion of temple

##### Leakage Investigation

- Bayhill III Office Center - San Bruno, CA: Leak investigation of a low-rise, precast concrete-clad office building with aluminum storefront windows
- Consulate Residence - San Francisco, CA: Leak investigation of historic masonry residence
